WORK EXPERIENCE

05/2018–06/2018

Research assistant RV Meteor (Brazil Namibia)

GEOMAR- Helmholtz Centre for Ocean Research, Kiel (Germany) and University of Southern Denmark (SDU), Nordcee Group, Department of Biology, Odense (Denmark)

- Project name: "Eastern boundary circulation and upwelling off Angola, tropical Atlantic overturning circulation. Project leader: Dr. Marcus Dengler

06/2017–08/2017

Research assistant in forest sampling and data analysing

University of Eastern Finland, Joensuu (Finland). Plant Ecophysiology research group

- Project name: "Towards more efficient Arctic research using dominant Betula species, spectromics and genomics (BETUMICS)". Project leader Prof. Elina Oksanen.

06/2017–09/2017

Research assistant in forest sampling

University of Bern (Switzerland). Plant Ecology research group-Institute of Plant Science

- Project name: "FunDivEurope". Project leader: Prof. Markus Fischer.

11/2016–03/2017

Laboratory Assistant

University of Eastern Finland, Joensuu (Finland). Plant Ecology research group

- Project name: "Effect of Sphagnum cover on Greenhouse gasses flux and decomposition-chain exoenzyme activity of Artic thermokarst peat". Project leaders: Prof. Teemu Tahvanainen, Maija Marushchak.

11/2016–11/2016

Laboratory Assistant

University of Eastern Finland, Joensuu (Finland). Aquatic Ecotoxicology research group

- Project name: "Novel materials for sediment remediation and applicability sorbent remediation under field conditions". Project leader: Prof. Jarkko Akkanen, PhD fellow: Sebastian Abel

02/2014–05/2014

Laboratory and field assistant

Universitat de València, Burjassot (Spain). Climatology from Satellites research group

- Project name "Roughness and vegetation parameterizations at L-band for soil moisture retrievals over a vineyard field". Project leader: Prof. Ernesto Lopez Baeza

07/2012–08/2012

La Dipu te beca scholarship, Administration

Department of Environment, Moixent (Spain)

EDUCATION

09/2015–05/2018

MSc in Environmental Biology

University of Eastern Finland, Joensuu (Finland)

-Master's thesis: "Improved application system for activated carbon based sediment remediation". Supervisors: Jarkko Akkanen and Sebastian Abel

01/2018-05/2018

International mobility, Erasmus + Traineeship

University of Southern Denmark (SDU), Nordcee Group, Department of Biology, Odense (Denmark)

- Project name: "Microbial weathering of marine plastic debris". Project leaders: Profs. Nicole R. Posth, Carolin Löscher.

01/2018-05/2018

BSc in Environmental Science

Universitat de València-Estudi General, València (Spain)

-Bachelor's thesis: "Spatial impact of the heat wave of 2003 summer in the Valencian Region". Supervisor: María José Estrela Navarro

09/2012-05/2013

International mobility, Erasmus+ program

University of Eastern Finland, Joensuu (Finland)

PERSONAL SKILLS

Languages

Spanish, Catalan and English (fluent), Finnish (basic)

Driving licence

B

ADDITIONAL INFORMATION

Courses

- October, 2013: English language Immersion Course (40h). International University Menendez Pelayo, Madrid (Spain).

- September, 2010: English scholarship in United Kingdom (60h). The English Studio Language School, London.

- July-August, 2009: English scholarship in United Kingdom (60h). Government of Valencia
